

Online summer workshop

Improving climate-related and environmental disclosures

Despite recent developments in the climate-related and environmental disclosure landscape, the market cites a need for improved quality and quantity of disclosure by companies on climate and environmental issues.

Attend a Germany-focused online workshop on how to enhance disclosures under the Non-financial Information Directive and align with the Task Force on Climate-related Financial Disclosures.

Hosted by Climate Disclosure Standards Board, UPJ and CSR Europe

Featured company case study: BASF
